

## CX MEDIA WALL BASIC INSTRUCTIONS

**Setup time approx. 15 minutes**

- Push open each cabinet door then turn on all PCs by pressing “Power” button on each PC (1, 2, 3, 4, 5)
  - Each PC has a labeled power button – make sure the indicator light turns on!
  - Pw should not be required – if needed: ‘cambridge’ (all lower case)
- The control tablet and cart are locked in the storage conference room
- Use remotes to turn on all display screens
  - For **top row** remotes – white labeled L, M, R – *only one is needed!* Stand in NICU lab and long press the power button to turn all on @ once
  - remote for **6 tile screens** – point at each individual display – top right corner on top displays, bottom right corner on bottom displays
  - Swipe up on each **touchscreen** to wake it up
- If Chrome *does not* open automatically – double click icon on desktop + enter web addresses
  - Google login if needed: [philipscxlab@gmail.com](mailto:philipscxlab@gmail.com) / C@mbr1dge)
- Use keyboard to open and move browser windows into designated displays for top row – use browser history (press ctrl + H) → left to right - /page2, /page3, /page4
- Press ‘•••’ icon on all browsers to set browsers to full screen
- Push the “power” button on the top left of the tablet – let it power on (approx. :30s-1min) – pw: ‘cambridge’
- Get the cart with the keyboard, mouse and tablet mount from the NICU lab
- Press the “moon” icon on the tablet to reset all the screens
- Click the mouse buttons to start the video on the large tiles
- Use the table and mouse to operate the media wall
- Click tiles to move through demos

## POWERING DOWN THE CX MEDIA WALL

1. Open each of the cabinets under the wall displays to access the keyboards and remotes
2. Push the power buttons on each PC (#s 1-5, see above) *until indicator lights turn off* – touchscreen displays will turn off automatically (may take a few mins)
3. Turn off the power for each display on the media wall using the remotes
  - a. For top row remotes - L, M, R – only one is needed! Stand in NICU lab and long press power button to turn all off @ once
  - b. remote for 6 tile screens – point at each individual display – right corner on top displays, bottom right corner on bottom displays
4. Please make sure to return the control tablet and cart to the storage conference room
